

Municipal Stormwater Regulation and Compliance Workshops

The Department will be conducting a series of free stormwater workshops in conjunction with some County Planning Boards on the Municipal Stormwater Regulation Program.

All Stormwater Program Coordinators for Tier A and Tier B municipalities, Public Complexes and Highway Agencies are encouraged to attend. The workshop will include a brief update on the Municipal Stormwater Regulation Program and NJDEP's compliance efforts. However the primary focus of the workshop is to facilitate a discussion among municipalities regarding challenges of implementing the program, exchanging information about successes and failures, and encouraging the sharing of responsibilities. The workshop will also provide a forum for feedback on the program and will afford municipalities the opportunity to ask specific questions. No registration is required.

See the information below for the specific county workshop you would like to attend:
